

Finding the label

The most common place to find it is listed below and is almost always on the back of the machine as well. Some brands have it stamped into the metal but it is usually a type of sticker.

Chest Freezer – On the outside down by the compressor can also be somewhere on the inside of the appliance.

Cook top – On the bottom of the appliance. Open any cupboards or remove any drawers below the appliance if possible.

Dishwasher – Around the door on the inside of the appliance.

Dish Drawer – On the front of the appliance cavity behind the bottom left corner of the top drawer, you will need to open the top drawer to see it.

Dryer – On the inside around the door or door cavity of the appliance.

Fridge/Upright Freezer Fisher & Paykel – On the bottom right of the appliance on the cavity front above the kick plate, you will need to open the door.

Fridge/Upright Freezer – Inside the appliance usually on one of the sides, can be concealed by the vegetable bins.

Stove/Wall Oven – On the inside of the appliance, often on the front of the cavity in between the door hinges.

Washing Machine Top Loader – On the back of the control panel

Washing Machine Front Loader – On the inside around the door or the door cavity or in the filter compartment at the bottom of the appliance.
